Subject: Substance Use Disorder Performance Improvement Project (PIP) Intervention

Greetings BHA Providers:

North Sound Behavioral Health Organization (North Sound BHO) has been working on developing the final part of a three (3)-step intervention. The provided link contains the substance use disorder (SUD) Golden Thread learning module that is available for all clinical staff to utilize as a resource. Unfortunately, this link is not a part of our Relias network and has no means of capturing completion. However, there is an attestation statement at the end of the module that can be printed and used as a method of internal tracking.

Module Link: <http://northsoundbho.org/Training2/index.html>

For this portion of the intervention to be successful, North Sound BHO also needs to ensure we are tracking how many SUD provider clinical staff in our region are completing the module. In order to track completion, we are requesting that each Quality Manager/Clinical Supervisor/PIP Champion provide monthly tracking reports to North Sound BHO. This report is attached and provides you with the necessary fields for completion. **We request that this report be filled out and completed by the 15th of every month for the previous month. (Ex. July's report will be due no later than August 15th)** Blank reports can be found on the North Sound BHO website with the training module.
